

Provider of Memory & Solid State Storage Solutions for Mission Critical Applications

MARKETS SERVED

❖ Embedded Computing

❖ Communications & Networking

❖ Storage Equipment

❖ Aerospace and Defense

PRODUCT DIVERSIFICATION

❖ Advanced Memory Solutions

- DRAM Modules
- Multichip Packages (MCP)

❖ Solid State Storage Solutions

- SSDDR™ (Flash and DRAM)
- LeanSTOR™ (Storage Blade)
- SaveRAM™ (Intelligent Memory Back-up)

CUSTOMER EXPERIENCE

❖ Worry-Free & Responsive Procurement Relationship

- Multiple-Brand, Cost Effective Solutions
- Manufacturing Flexibility: High Volume, Low Volume, High Mix, Short Lead Time
- Low Cost, High Availability & Product Life Cycle Management
- Quick Response in Quotation, Technical/Engineering Support & Schedule Changes

❖ Collaborative Engineering Relationship

- Solving and Optimizing Complex Designs
- Perform Board Simulation, Power, Thermal, Signal Integrity Analyses
- Complete Hardware, Software & Packaging Design
- Advising on Best Design
